

Knitted tubular netting

Knitted tubular netting is an attractive packaging for potatoes, vegetables and fruit. It is strong, soft, inexpensive, has many different applications and can be worked in a variety of different ways. NNZ has a large range of this product in stock in its European branches so that

constant product quality and rapid delivery are guaranteed. NNZ can supply knitted tubular netting according to the specifications of the customer or on request for those who require a special type which is not included in the extensive standard range.

Knitted tubular netting

Material Knitted tubular netting (raschel) made from polyethylene.

Type Sleeves, bales, or on rolls, for automatic packaging and for hand clippers. Packed weight from 500 gr to 5 kg. Various structures, widths and mesh sizes.
